Ultimate Guide for Magento 2 Discount Filter

Introducing Magento 2 Discount Filter extension, Improve the Layered Navigation with filtering products by discount. Show discounts in percentage or in amount in the filter. The module counts percentage and amount of discounts

- The website admin can enable or disable the functionality of a convenient plugin that empowers users to experience a swift checkout process for their selected section.
 - The administrator has the authority to activate or deactivate the button on specific pages according to their requirements.
-

How to install the extension

1. Install via composer (recommend)

- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **composer require mageinic/discount-filter**
- Run the command **php bin/magento module:enable MageINIC_Core MageINIC_DiscountFilter**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

2. Upload via ZIP/Archive

- Back up your store's database and web directory
- Download the extension zip file and extract the zip file
- Transfer the **MagelNIC** folder to the Magento 2 **app/code/** directory on the server
- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **php bin/magento module:enable MagelNIC_Core MagelNIC_DiscountFilter**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

Extension Configuration

To configure the extension configuration, Please go to **Stores** → **Settings** → **Configuration** → **MagelNIC** → **Discount Filter Button**.

Discount Filter Configuration

The screenshot displays the Magento 2 Configuration interface. On the left, a sidebar lists various system areas like Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, and System. The main content area is titled 'Configuration' and shows the 'General Settings' section. Within this section, the 'Discount Filter' option is highlighted. A red box encloses the 'Enabled' dropdown menu, which is currently set to 'Yes'. A red arrow points to this dropdown with the text: 'You can enable or disable this module by using this option Yes/No'. The page also includes a 'Save Config' button and a footer with copyright information and links to Privacy Policy and Report an Issue.

Module Enable - You can enable or disable this module by using this option Yes/No
